ALLEGED HUMOR.

A Letter Supposed to Have Been Written by Sullivan.

SAN FRANCISCO, May 8.—The following letter from John L. Sullivan has has been received by Director Wm. Vice, of the California Athletic Club:

"I am in fine shape, you can gamble your last splinter. Things in Missisippi are O.K. Keep dark till then, and the $20,000 is mine. You needn't give me no pointers on the nig. I can destroy his complexion without any coaching. If I don't I'm willing to be mud, and soft mud at that. I don't love writing, old man, or I'd give you a whole lot of business. That Corbett's been doing chin music till you can't rest. He ain't in my class and he knows it. I went to the dog fight last night. It was pretty good. I left after an hour. There is a report in this town of New York that I am going to smash his mug. He is the man that is talking about my 'jag' all the time. He starts it, and it goes. Some of them fellers is rotten. I have not been good and drunk for a week. Give my love to all, especially the boys of the California Club. Tell them I won't fool them. John L. is himself again, and no extra fat on his bones. Mr. Dana, of the Sun, failed to show that I was as fat as Mr. Cleveland. Yours respectfully,

JOHN L. SULLIVAN.

"P.S.—Don't yer believe everything you hear. Joe McAuliffe's a good man, but I prefer to knock $20,000 worth of conceit out of the hide of the Austialian."

Eureka cotten-covered garden-hose, best in the market, at McLennan & McFeeley's, 70 Yates street.

Are you Dyspeptic? Take Burdock Blood Bitters.

1 cent a dose, 1 cent a dose, Burdock Blood Bitters.

AMERICAN DISPATCHES.

ELECTRICAL EXECUTION—THE KEMMLER CASE AGAIN.

A Suicidal Club—A Lifeless Life Insurance Company—Satisfactory Test of a New Cruiser—Chinese Smuggling Through Mexico.

NEW YORK, May 10.—Simpson's dry dock at the United States navy yard was opened this morning in the presence of several hundred visitors from New York, Washington, Baltimore and Philadelphia. Nearly one hundred guests from Washington and Baltimore came on a special train of Pullman cars last night, arriving in Jersey City at 7 o'clock. Breakfast was served in the Union Station at 10 o'clock. The delegation from Philadelphia arrived and shortly afterwards the guests were taken by steamer to the navy yard. The dock was flooded at about 11 o'clock, and the United States steamers Monitor and Puritan were docked immediately and the pumps set at work at once emptying the dock. The whole affair passed quickly and without mishap. After the formal opening of the dock a collation was served to the invited guests, at which Mr. Simpson, the new dock, and the United States navy were toasted. The dry dock has been in course of erection about two years and a half, and cost more than half a million dollars. Its extreme length is 530 feet, greatest width at top is 130 feet, and at bottom 53 feet. The depth in the centre is 32 feet 8 inches, and the floor rests upon rows of piles from its sides, and rise at an angle of 45 degrees in series of steps of ten inches in height, made of Georgia pine beams. It is emptied by two centrifugal pumps of 42 inches diameter, with a capacity of 80,000 gallons an hour. The builders, J. E. Simpson & Co., have built thirteen other docks on the same pattern.

The Cruiser Philadelphia a Flyer.

PHILADELPHIA, May 8.—The new cruiser Philadelphia began her first trial trip off the capes at 7 a.m. yesterday and continued it for 3½ hours, travelling sixty-five miles. The object was not to determine speed, but to see that her machinery worked smoothly, though a log was occasionally thrown out. The machinery all worked well at a high rate of speed, and the maximum speed attained was 20.74 knots an hour, with 118 revolutions a minute of the twin screws, under a 115-pound head of steam. A premium will be paid for all speed over nineteen knots.

The Bridgeport Suicide Club.

BRIDGEPORT, Conn., May 10.—During the past few years there have been many stories about the Bridgeport suicide club, but as a matter of fact there was never such an organization. The story originated in a joke followed by a squib in the local papers. Last week a letter was received at the local postoffice, however, which bore the Paris postmark, addressed to "The President of Suicide Club, Bridgeport." For some time no one claimed the letter, but at length a man named Loeser went to the postoffice and took the letter, saying he was the secretary of the club. The letter was from four Frenchmen who had met with business reverses. They now desire to organize a branch of the suicide club so they may kill themselves in proper style. The writers wrote to ask for a charter or something of the sort to authorize them to set up in business in Paris.

Killed by a Cat.

DANVILLE, Va., May 10.—A peculiar account of a man being killed by a cat reached here from Rockingham County N. C. this morning. David Stokes colored, tried to drive a pet cat out of the house but the animal refused to go. He struck it with a peice of wood, when the cat heretofore very gentle, at once became enraged, springing at Stokes and fastening its teeth in his wrist. He tried to shake the animal off but it would not let go and others who came to his assistance were equily unsuccessful. It finally became necessary to cut the cats head off before the grip could be relaxed. Stokes was then taken sick and although no symptoms of hydrophobia developed he gradually sank and finally died.

Strikes in Order.

CLEVELAND, May 10.—The contest between the Radical and Conservative elements in the Order of Railroad Conductors is developing, and will be fought out at the annual convention to be held at Rochester next week. The membership of the order is about 35,000, including Canada and Mexico, and its constitution forbids strikes for any cause. This has prevented the sympathetic support of the strikes of engineers, and a strong element in the order will endeavor to have the constitution amended next week so as to admit of strikes under certain conditions.

Freight Fire.

BATH CITY, Mont., May 10.—A fire broke out in the freight depot of the Montana Union Railroad at this place at 3 o'clock this morning. By the time the firemen arrived on the scene nothing was left for them to do but to save the adjoining building. Only a portion of the books and papers in the office were saved. A large quantity of freight is lost. It is the general belief that the fire was the work of an incendiary. The loss is estimated at over $20,000.

To Stop Chinese Smuggling Into Mexico.

SAN DIEGO, May 10.—Governor Louis Tooves, of Lower California, who has just arrived; when spoken to about the smuggling of Chinese said: "I have not considered the question fully, but am ready to co-operate with the United States authorities to put a stop to it." On the subject of the annexation of Lower California he said "The feeling there is that annexation cannot become a serious question."

A Tenement House Caves In.

BROOKLYN, N. Y., May 10.—Shortly after ten this morning the story and basement tenement house at the corner of Broadway and Hull streets, fell without a moment's warning, burying the tenant's in the ruins. Blazing coals from an over turned stove scattered in all directions setting fire to the debris. The ruins soon became a mass of flames. The firemen and police were summoned and were soon at the scene. The police report three persons killed and several injured. They are mostly, women and children as the men had gone to work. There is much excitement in the neighborhood and thousands have flocked to the scene. The building was frame.

New U. S. Consuls.

WASHINGTON, May 10.—The President sent to the Senate to-day the following nominations to be Consuls for the United States: Wm. H. Abercombie of New Jersey, at Nagasolli; Henry Ballentine of the District, at Bombay; J. C. Chambers of New York, at Batavia, Russia; J. S. McCoughan of Iowa, at Durange; Charles F. Egley of Maryland, at Rio Grande Do Sue; Samuel D. Fair of Michigan, at Port Sarnie; Edwin Stevens of Pennsylvania, at Penambuca; Charles Weare of Iowa, at Vera Cruz. To be Secretaries of U. S. Legislation: S. M. Bartlett of Massachusetts, at Carocas; R. B. Mahony, of New York, at Santiag.

Life Insurance Co. Lifeless.

PHILADELPHIA, Pa., May 10.—The American Life Insurance Co. closed its doors this morning. President MacFarlane was seen at his office and said the immediate effect of it was on account of warrants issued by the Attorney-General to appear in the court and show cause why its business should not be closed. It would be better to stop the business at once, from the time of the receipt of the writ of the Attorney-General. The company can do no more life insurance business, "we must wait until further notice." He said further than this, "I do not care to talk because Commissioner Forester is in Harrisburg, where he said yesterday 'things look bad for the company, the stock is sunk and I am trying to protect the policy holders with what is left.

Delayed by an Accident.

NEW YORK, May 10—The North German Lloyd Steamship Allen, from Bremen, May 1st arrived to-day. She was delayed by a slight accident to her machinery.

A Prominent Catholic Dead.

BROOKLYN, N. Y., May 10—Very Rev. Father William Keegan, vicar-general of the Roman Catholic church of this diocese, died this morning of pneumonia at his home in this city. He has been ill since Monday.

Valuable Horses Burned.

BOSTON, MASS, May 10.—Twenty-seven valuable horses, the property of a Cambridge gentleman, were burned to death this morning in the Oxford stables, the finest boarding stables in Cambridge. Loss, $20,000. Several of the horses were noted steppers.

Fell to Death.

SAN FRANCISCO, May 10.—Shortly after the arrival of the steam schooner Scotia from Oregon this morning, Thos. Graham chief engineer, tried to step ashore, but missed his footing and fell into the bay, and was drowned. Graham was 42 years of age, and had been married only a few months.

Powder Mill Explodes.

SCRANTON, Pa., May 10.—The corning mill at the Consumers Powder Works was blown up at 10:30 o'clock to-day and totally wrecked. A workman named Wm. Millet was instantly killed.

Kept Free.

ALBANY, N. Y., May 10.—It is stated that Geo. P. Whitney an individual book-keeper of the Albany city bank is short in his accounts $30,000. He is not yet arrested and it is believed his relatives and friends made good the amount.

Kemmler's Case.

AUBURN, N.Y., May 10.—The habeas corpus writ, in the case of the murderer Wm. Kemmler, sentenced to death by electricity, issued by Judge Corbett, of Buffalo, on the application of Charles S. Hatch, came up before Judge Underwood here to-day. By stipulation of counsel, Kemmler was not present. Bourke Cochrane, of New York, and Charles S. Hatch, of Buffalo, appeared for Kemmler, and Attorney-General Tabor represented the agent and Warden Durston, to whom the writ was issued. The writ and answer of the Attorney-General were filed and Cochrane stated that the point raised was whether the court of oyer and terminer of Erie county had jurisdiction to pronounce the sentence imposed. The particular point made is that the legislature had no constitutional power to take from the sheriff, who is a constitutional officer his power to inflict capital punishment, that having been one of his powers from time immemorial, and to confer these powers upon another constitutional officer. He said the contention was that such a course was unconstitutional. The object of the proceedings was not to delay execution, but to submit in good faith the question to the courts. He was willing and hoped that the case could be disposed of speedily by stipulation. No argument was to be made on either side, and it was agreed that Judge Underwood should enter judgment pro forma denying writ and he remanded prisoner to the custody of the warden, which was done.

SPORTING NOTES.

Brief Resume of Sporting Matters Here and Elsewhere.

A BOAT AVAILABLE.

Should anyone wish to purchase a first-class sailing boat, they can hear of one, 23½ feet length, 5 feet 10 inches beam, with oars, sails and rudder complete, at a very cheap rate by enquiring of the sporting editor of the TIMES.

The ladies of Victoria will find it to their interest to examine my stock of white linen before purchasing elsewhere Stamping done. Mrs. Hendry, 37 View street.

Children Cry for Pitcher's Castoria.

HOME AND FOREIGN.

MR. GORDON URGES IMPROVING NANAIMO HARBOR.

Rykert Again on Trial, Seeking a Favorable Verdict from His Constituents—The Newfoundland Delegates in Toronto.

OTTAWA, May 10.—While the House was in supply on supplementary estimate last evening Mr. Gordon pressed upon the attention of the minister of public works the necessity of improvement to the entrance to Nanaimo harbor. Cartwright said the matter was very important and suggested that it be looked into. Sir Hector said he gave orders for the removal of Nicol Rock which was so dangerous to vessels. When the land grants to Manitoba railways were before the House last evening Mitchell referred to the monopoly which was given the Galt Coal Company. He brought the House back to the time when at the close of the session as they were then doing they gave vast monopolies of coal fields to Dunsmuir. He showed these coal fields were in the hands of American owners of a great monopoly worth millions and which ought to be the property of Canadians. Everybody in the House regretted that the legislation ever took place and he cautioned lest in giving hastily away the Northwest to land companies and railways they were not doing that which would not yet be regretted. The House sat yesterday with clossed doors when it was decided to run a restaurant on the English system as a club.

German Army Credits.

BERLIN, May 10.—The Kaiser, on receiving his ministers to-day, said fresh credits for the army are asked solely that the military forces of Germany should not become inferior to those of other nations and that the project was was conceived within the limits of what is strictly necessary after having taken the opinions of generals and chief military attaches at foreign courts, he had personally assisted in drawing up a project destined to maintain peace and prevent the weakening of Germany. In conclusion, the Emperor expressed surprise that the press should have misconstrued the motives which dictated these fresh military expenditures.

Masonic Influence.

ROME, May 10.—A great sensation was created in the chamber yesterday by Deputy Imbriani, who demanded a commission to investigate the Kentucky charge that a monopoly of supplying tobacco to Italy was given to Patjen Toll Co., because its agent in Rome was a grand master of Italian Freemasons and could use the organization in politics or against the Government. Imbriani said he would produce documentary evidence to support the accusation. The Minister of Finance consented to the proposed investigation.

Von Caprivi and Bismarck.

BERLIN, May 9.—The belief that Chancellor Von Caprivi's resignation will be tendered to the Emperor very shortly, is very general among the diplomats here. It is known that he has found the details of the foreign department irksome and uncongenial, and he is by no means in sympathy or accord with either the foreign policy or officials subordinate to him in the chancellory.

The announcement that Prince Bismarck is about to make public the complete story of his dismissal from the chancellorship, together with the events which led up to it, has greatly enraged the Emperor. In order to prevent any such outburst on the part of the ex-Chancellor, the Emperor has sent him a personal letter reminding the Prince that he is liable to severe punishment under an amendment to the penal code of his own making, if he makes public or causes to be published any knowledge regarding state matters gained by him during his official life.

Unpredicted Explosion.

NANCY, May 10.—A sad accident occurred to the sixth battery of eighth regiment of artillery when it was out this morning, going through blank cartridge exercise. Over a dozen men were sent out to pick up the cartridges which had not been fired, when all at once a violent explosion was heard, followed by cries of pain. A rush was made to the spot, and seven unfortunate soldiers were found rolling about on the ground, suffering the most horrible torture. Their faces were charred and blackened by powder, their beards burned off, and their clothes torn into shreds. Three of them will probhbly lose their eyesight. The wounded men were carried to the military hospital, where they stated that the cartridge had exploded just at the moment they were going to pick it up.

Will Get His Deserts.

PARIS, May 10.—Jean Vodable was tried and condemned to death to-day for an atrocious crime. Last November he murdered a twelve year old daughter of a friend. To-day in court he confessed the murder, and when questioned by the judge he said, "I found Almandaine getting ready for school, and asked her about the visits paid to her mother. She said she could tell me nothing as it was not her business. I said 'if you do not tell me, I will wring your neck,' and I took her and wrung her neck." A shudder ran through the audience, when silence was broken by a murmur of loathing from the public. When order had been restored, he resumed without waiting for the judge, "Then I pushed her under the bed, as she moved a bit, I took a stick and pushed her further under, and then she was still at last."

In Honor of the Duke.

TORONTO, Ont., May 10.—The Victoria Skating and Curling Association will give a grand ball in honor of the Duke and Duchess of Connaught's visit.

Weldon Extradition Treaty.

OTTAWA, May 10.—It is stated to-day on reliable authority that the British Government has intimated to the Dominion Government its intention not to interfere with the carrying into effect of the Weldon extradition bill. This bill was passed by the Dominion Parliament last session. Under it, irrespective of any treaty of extradition, the Canadian Government will be able after the act is proclaimed, to hand over to any country, such fugitives from justice as come within the scope of the 27 extraditable offences mentioned therein.

Robideaux Sworn In.

QUEBEC, May 10.—At the Cabinet Council Robideaux, M. P. P., was sworn into office as Provincial Secretary.

The Newfoundland Delegates.

TORONTO, May 10.—The Newfoundland delegates arrived this morning and called on the Mayor. They went to Hamilton this afternoon and will speak before the Board of Trade to-morrow, p. m. On Monday they will appear before the Toronto Board of Trade. The third delegate, R. J. Bowers, remains in Ottawa to influence public opinion.

The Papers Oppose Rykert.

ST. CATHARINES, Ont. May 10.—The air is full of rumors regarding the bye-election for the Dominion House. The Reformers will convene here Tuesday to select a candidate. In the meanwhile J. C. Rykert is making a vigorous canvas and is holding meetings nightly. The local papers all oppose him.

Drowned in the St. Lawrence.

GANANOQUE, Ont., May 10.—A boat containing three men capsized near here in St. Lawrence river to-day and a man named Ernest Fowler was drowned.

THE WORLD'S FAIR.

The McKinley Tariff Bill Will Deter British Competition.

LONDON, May 10.—In the House of Commons, Mr. Collings, the Unionist member for Bordsley, asked whether in event of the tariff bill now pending in the American Congress becoming law, would the Government take steps to encourage British manufacturers to carry their exhibits to Chicago on the occasion of the proposed World's Fair. Mr. Collings said that he asked the question because the McKinley tariff bill operated to prohibit the importation into the United States of British manufacture.

Sir James Ferguson, Under Secretary for Foreign Affairs, in reply to Collings, said, that the matter of official participation in the World's Fair by Her Majesty's government was one which could only be determined after careful review of the advantages likely to accrue to the Government of Great Britain as a consequence of such participations. The question could not be decided until after the formal investigation had been received by the Government to be officially represented at Chicago. Sir James however added it was probable that the manufacturers of Great Britain would be to a great extent deterred from sending exhibits to the United States on the occasion in question, if the tariff bill, when passed, was found to preclude profitable sale in the American market of British goods.

THE CITY'S POOR.

Something Soon to be Done Towards Providing for Them.

By an Act passed at the last session of the legislature it has become imperative on the city to provide for its poor and indigent, and in accordance with this measures are soon to be taken towards the proper maintainance of those unfortunates who either through accident or sickness have been deprived of the means of obtaining a livelihood.

The plan has as yet not been fully matured, but one gentleman of this city has expressed himself as willing to give $500 towards the purchase of a suitable home for the sick and aged poor of the city, provided that others will join in the charitable move. At present there are very few really poor in the city, but as it grows there will always be a certain percentage of unfortunates who are worthy objects of charity. Even now applications for aid are often made to the city authorities, but as no special provision has been made for this expenditure beyond a few hundred dollars, the aid is in all cases necessarily limited. The Board of Aldermen will soon, however, bring up a measure to deal with the matter, and then the charities which are now dispensed by a few whole-hearted citizens will be joined in by all, and the municipality as a body will see to it that no deserving poor are left destitute.

A Union Pacific Party Coming.

Charles Francis Adams, president; Frederick L. Ames, of Boston, and other stockholders of the Union Pacific railway are on the way to the coast from the east, and will arrive early next week. Mr. Ames is a nine-time millionaire of Boston, and one of the wealthiest men of the "Hub." The party is coming to look over the projected lines in the Puget Sound country, the Mecca of railroads and capital.

Ask your grocer for a box of Pendray's Electric soap, 20 bars for $1.00

Autumn Anxieties.

I had a very bad cough this fall, but Hagyard's Pectoral Balsam cured me completely.

E. ROBINSON, Washago.

Pectoral Balsam cures coughs, colds, hoarseness, asthma, bronchitis and all throat and lung troubles.

THE IRRIGATION PROBLEM.

Report of the Senate Committee on Desert Reclamation.

WASHINGTON CITY, May 8.—The irrigation committee of the Senate reported to-day on the subject of irrigation of the lands in the west. The report says: "More than two-fifths of the area of the United States, including Alaska, requires irrigation to insure regular crops. With dams and reservoirs at suitable places a large extent of this region could be made productive, and the floods of the Lower Mississippi all averted. The process of irrigation could be aided by boring artesian wells. All the country west of the eastern base of the Rockies, except the part of Washington, Oregon, and northern California west of the Cascade mountains, and small areas in eastern Oregon, Washington and northern Idaho, requires irrigation. The total value of the reclaimed land would be nearly $600,000,000, allowing for the reclaimability of 100,000,000 acres of land, and we have a total real estate value of $2,500,000,000. The committee on the bill reported heretofore recommended the transfer of the subject to the department of agriculture. The report charges the geological survey with diverting $180,000 of the money appropriated for irrigation surveys to a topographical survey, and committee submit in conclusion an estimate of the areas under cultivation. From this it seems that the area under ditch is 13,561,000 acres, of which 4,000,000 are in California and 3,000,000 in Colorado. The amount cultivated by irrigation is 7,763,000 acres, of which 3,500,000 are in California and 1,600,000 in Colorado. Projects under way last year and partly completed will bring the area under ditch up to 15,000,000 acres.

Mr. Regan submits a minority report disagreeing with most of the conclusions of the majority, and recommending congressional action diametrically opposed to that recommended by the majority. He says the arid lands embrace an area of 1,340,000 square miles, of which 1,000,000 acres can be redeemed for agriculture by using the total supply of perennial streams. The minority recommends the adoption of the system of measuring the waters used for irrigation to prevent waste. They urge the necessity of protecting the forests, which are being rapidly burned. Also the pasturage lands. Irrigable lands should be segregated, and declared such, and the right to use water on them established, and a prohibition established upon the use of water on other lands. Irrigation districts should be established on these lands with catchment areas. The minority believe the recommendation to discontinue the topographical work of the survey and to bore for artesian water is unwise.

The war between the irrigation factions is being carried into the newspapers. An evening paper to-night charges Hinton, who is now in charge of the irrigation surveys under the agricultural department, with being a socialist, and alleges that his past is crooked, and his appointment was brought about by a well-known senator with whom he had influence.

Brief Telegrams.

The Ontario elections will be held on the 7th and 14th of June.

Henry W. Darling will retire from the position of president of the Bank of Commerce at the annual meeting in June next.

Wm. O'Brien has been refused a new trial for his libel suit against Salisbury. At the first trial a verdict was returned for Salisbury.

The Toronto bakers have increased the price of bread one cent per pound loaf in consequence of the increased price of flour by the National Policy.

Ex-Judge Hilton has been sued for $50,000 in a libel suit brought by Graham, city editor of the New York World. Graham is one of those arrested on Hilton's complaint for criminal libel.

Duncan C. Ross, the athlete, was recently attacked by footpads or bushmen in Australia. They knocked him down but he got up and whipped all three, knocking one of the bushmen's eyes out with a horn-handled stick.

At a meeting of Spokane citizens the first steps were taken towards the organization of a mining and stock exchange. The proposed capital is one hundred thousand dollars. The object of the company is to investigate mining prospects, float mining companies and deal in mining stocks.

Mr. Merner of New Hamburg, Ont., the eldest brother of Senator Merner, was driving a spirited horse when the animal took fright, and making a sharp turn upset the wagon, throwing Mr. Merner out. His leg was broken in three places, and he was also internally injured. Death resulted. He was 75 years of age.

The men from the Pacific Northwest who are specially interested in lead and the duty fixed by the ways and means committee at Washington on mixed ores are just now very much alarmed. It is more than probable that enough Republicans will vote with the Democrats to take off the duty. The Kansas Republicans are working hard, and are reinforced by a strong lobby from the smelters, who are furnishing any amount of information. The owners of lead mines, who would be benefitted, have been singularly silent, and have depended entirely upon the men in Congress. Carter of Montana, and Dubois of Idaho, have been hard at work, and the fact that the lead schedule is in the bill is due to them, but the owners have said very little, and have furnished no statistics upon which the representatives may base their arguments.

Henry Kirnolt, president of the singing society of St. Matthew's Evangelical church, St. Louis, and director of the Young Men's Christian Association, was shot and killed while he and a confederate were fleeing from a carpenter shop they tried to rob. The proprietor of the shop, George Stalkamp, was awakened by their efforts to break in, and running down with a shotgun, called to them to halt. They ran and he fired. One fell dead and the other escaped. The body was taken to the morgue and this morning identified as that of Kirnolt. He had been married only five months and stood high in the estimation of his acquaintances. His wife is prostrated with grief.

Aspinall's Enamel for renovating and beautifying everything (150 colors). No house should be without it. 50 cts. per tin. Adderley, 115 Government St.

Coming North.

SAN FRANCISCO, May 10.—The steamer Walla Walla sailed from this port for Victoria and Puget Sound this morning with the following passengers for Victoria: J. Dunsmuir and wife, C. A. Maguire, E. A. Wadhams, L. Pope, W. J. Harder and J. H. Downer.

What Will He Do Next?

The continental gossip of the Glasgow Herald writes: "What will the German Emperor do next? is now the general cry. He has done so many startling things already, and takes such an evident delight in making men's tongues wag, that nobody would be much surprised if he were to propose a congress for universal disarmament. Men have already become convinced that he is sincerely religious, and that he has no ambition for bloodshed. A little time ago, wishing to realize the sensations of a soldier on guard, he put himself on duty for 24 hours in an extemporized guard-room within his own garden at Potsdam, and stood sentry during four spells of two hours each during that time. He wore the uniform of a private soldier, carried a rifle and of the soldier's ordinary. But unlike Peter the Great, who did these things often enough in real earnest—mixing with the soldiers and lying down beside them—William II took his little diversion all alone. No officer came to relieve him; and, in fact, only one or two persons of his entourage were aware of what he was doing until he had done it. When the whole thing was over he was asked how he had enjoyed standing sentry at night, and he answered: "I was thinking all the time how many millions of poor wretches have gone through the drudgery of military life while loathing it, and have got killed in wars for the cause of which they did not care a button."

Coughs, Colds, Croup.

Allen's Lung Balsam was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs ALLEN'S LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and $1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balsam, call for a 25-cent bottle to test it.

THE SKIN OF HIS TEETH.

DR. TALMAGE PREACHES ON THE WELL KNOWN TEXT FROM JOB.

It Does Not Matter How Narrow the Escape Is if Only You Find God at Last. An Eloquent Argument for Christianity and Peace.

BROOKLYN, May 4.—After the Longmeter Doxology and appropriate hymns had been sung by the congregation in the Academy of Music, and prayer had been offered, Dr. Talmage preached on "Narrow Escapes," taking as his text Job xix, 20, "I am escaped with the skin of my teeth." Following is his sermon in full:

Job had it hard. What with boils and bereavements and bankruptcy, and a fool of a wife, he wished he was dead, and I do not blame him. His flesh was gone, and his bones were dry. His teeth wasted away until nothing but the enamel seemed left. He cries out, "I am escaped with the skin of my teeth." There has been some difference of opinion about this passage. St. Jerome and Schultens, and Drs. Good and Poole and Barnes have all tried their forceps on Job's teeth. You deny my interpretation and say, "What did Job know about the enamel of the teeth?" He knew everything about it. Dental surgery is almost as old as the earth. The mummies of Egypt, thousands of years old, are found today with gold filling in their teeth. Ovid and Horace and Solomon and Moses wrote about these important factors of the body. To other provoking complaints, Job, I think, has added an exasperating toothache, and putting his hand against the inflamed face, he says, "I am escaped with the skin of my teeth."

A very narrow escape, you say, for Job's body and soul; but there are thousands of men who make just as narrow escape for their soul. There was a time when the partition between them and ruin was no thicker than a tooth's enamel; but as Job finally escaped, so have they. Thank God! thank God!

Paul expresses the same idea by a different figure when he says that some people are "saved as by fire." A vessel at sea is in flames. You go to the stern of the vessel. The boats have shoved off. The flames advance; you can endure the heat no longer on your face. You slide down on the side of the vessel, and hold on with your fingers, until the forked tongue of the fire begins to lick the back of your hand, and you feel that you must fall, when one of the lifeboats comes back, and the passengers say they think they have room for one more. The boat swings under you—you drop into it—you are saved. So some men are pursued by temptation until they are partially consumed, but, after all, get off—"saved as by fire." But I like the figure of Job a little better than that of Paul, because the pulpit has not worn it out; and I want to show you, if God will help, that some men make narrow escape for their souls, and are saved as "with the skin of their teeth."

TWO PICTURES.

It is as easy for some people to look to the cross as for you to look to this pulpit. Mild, gentle, tractable, loving, you expect them to become Christians. You go over to the store and say: "Grandon joined the church yesterday." Your business comrades say: "That is just what might have been expected; he always was of that turn of mind." In youth this person whom I describe was always good. He never broke things. He never laughed when it was improper to laugh. At seven, he could sit an hour in church, perfectly quiet, looking neither to the right hand nor to the left, but straight into the eyes of the minister, as though he understood the whole discussion about the eternal decrees. He never upset things nor lost them. He floated into the kingdom of God so gradually that it is uncertain just when the matter was decided.

Here is another one, who started in life with an uncontrollable spirit. He kept the nursery in an uproar. His mother found him walking on the edge of the house roof to see if he could balance himself. There was no horse that he dared not ride—no tree he could not climb. His boyhood was a long series of predicaments; his manhood was reckless; his midlife very wayward. But now he is converted, and you go over to the store and say, "Arkwright joined the church yesterday." Your friends say, "It is not possible! You must be joking." You say: "No; I tell you the truth. He joined the church." Then they reply, "There is hope for any of us if old Arkwright has become a Christian!" In other words, we will admit that it is more difficult for some men to accept the Gospel than for others.

I may be preaching to some who have cut loose from churches and Bibles and Sundays, and who have come in here with no intention of becoming Christians themselves, but just to see what is going on; and yet you may find yourself escaping, before you leave this house, as "with the skin of your teeth." I do not expect to waste this hour. I have seen boats go off from Cape May or Long Branch and drop their nets, and after awhile come ashore, pulling in the nets, without having caught a single fish. It was not a good day, or they had not the right kind of a net. But we expect no such excursion today. The water is full of fish, the wind is in the right direction, the Gospel net is strong. Oh, thou who didst help Simon and Andrew to fish, show us today how to cast the net on the right side of the ship!

THE HEART'S DOOR.

Some of you, in coming to God, will have to run against skeptical notions. It is useless for people to say sharp and cutting things to those who reject the Christian religion. I cannot say such things. By what process of temptation or trial or betrayal you have come to your present state I know not. There are two gates to your nature—the gate of the head and the gate of the heart. The gate of your head is locked with bolts and bars that an archangel could not break, but the gate of your heart swings easily on its hinges. If I assaulted your body with weapons you would meet me with weapons, and it would be sword stroke for sword stroke, and wound for wound, and blood for blood; but if I come and knock at the door of your house you open it, and give me the best seat in your parlor. If I should come at you now with an argument you would answer me with an argument; if with sarcasm, you would answer me with sarcasm; blow for blow, stroke for stroke; but when I come and knock at the door of your heart you open it and say, "Come in, my brother, and tell me all you know about Christ and heaven."

Listen to two or three questions: Are you as happy as you used to be when you believed in the truth of the Christian religion? Would you like to have your children travel on in the road in which you are now traveling? You had a relative who professed to be a Christian, and was thoroughly consistent, living and dying in the faith of the Gospel. Would you not like to live the same quiet life, and die the same peaceful death? I have a letter, sent me by one who has rejected the Christian religion. It says: "I am old enough to know that the joys and pleasures of life are evanescent, and to realize the fact that it must be comfortable in old age to believe in something relative to the future, and to have a faith in some system that proposes to save. I am free to confess that I would be happier if I could exercise the simple and beautiful faith that is possessed by many whom I know. I am not willingly out of the church or out of the faith. My state of uncertainty is one of unrest. Sometimes I doubt my immortality, and look upon the death bed as the closing scene, after which there is nothing. What shall I do that I have not done?" Ah! skepticism is a dark and doleful land. Let me say that this Bible is either true or false. If it be false, we are as well off as you; if it be true, then which of us is safer?

Let me also ask whether your trouble has not been that you confounded Christianity with the inconsistent character of some who profess it. You are a lawyer. In your profession there are mean and dishonest men. Is that anything against the law? You are a doctor. There are unskilled and contemptible men in your profession. Is that anything against medicine? You are a merchant. There are thieves and defrauders in your business. Is that anything against merchandise? Behold, then, the unfairness of charging upon Christianity the wickedness of its disciples. We admit some of the charges against those who profess religion. Some of the most gigantic swindles of the present day have been carried on by members of the church. There are men standing in the front rank in the churches who would not be trusted for five dollars without good collateral security. They leave their business dishonesties in the vestibule of the church as they go in and sit at the communion. Having concluded the sacrament, they get up, wipe the wine from their lips, go out, and take up their sins where they left off. To serve the devil is their regular work; to serve God, a sort of play spell. With a Sunday sponge they expect to wipe off from their business slate all the past week's inconsistencies. You have no more right to take such a man's life as a specimen of religion than you have to take the twisted irons and split timbers that lie on the beach at Coney Island as a specimen of an American ship. It is time that we draw a line between religion and the frailties of those who profess it.

THE BIBLE.

Do you not feel that the Bible, take it all in all, is about the best book that the world has ever seen? Do you know any book that has as much in it? Do you not think, upon the whole, that its influence has been beneficent? I come to you with both hands extended toward you. In one hand I have the Bible, and in the other I have nothing. This Bible in one hand I will surrender forever just as soon as in my other hand you can put a book that is better. Today I invite you back into the good old fashioned religion of your fathers—to the God whom they worshiped, to the Bible they read, to the promises on which they leaned, to the cross on which they hung their eternal expectations. You have not been happy a day since you swung off; you will not be happy a minute until you swing back.

Again: There may be some of you who, in the attempt after a Christian life, will have to run against powerful passions and appetites. Perhaps it is a disposition to anger that you have to contend against; and perhaps, while in a very serious mood, you hear of something that makes you feel that you must swear or die. I know a Christian man who was once so exasperated that he said to a mean customer: "I cannot swear at you myself, for I am a member of the church; but if you will go down stairs my partner in business will swear at you." All your good resolutions heretofore have been torn to tatters by explosion of temper. Now there is no harm in getting mad if you only get mad at sin. You need to bridle and saddle those hot breathed passions, and with them ride down injustice and wrong. There are a thousand things in the world that we ought to be mad at. There is no harm in getting red hot if you only bring to the forge that which needs hammering. A man who has no power of righteous indignation is an imbecile. But be sure it is a righteous indignation, and not a petulancy that blurs and unravels and depletes the soul.

There is a large class of persons in midlife who have still in them appetites that were aroused in early manhood, at a time when they prided themselves on being a "little fast," "high livers," "free and easy," "hail fellows well met." They are now paying, in compound interest, for troubles they collected twenty years ago. Some of you are trying to escape, and you will—yet very narrowly, "as with the skin of your teeth." God and your own soul only know what the struggle is. Omnipotent grace has pulled out many a soul that was deeper in the mire than you are. They line the beach of heaven—the multitude whom God has rescued from the thrall of suicidal habits. If you this day turn your back on the wrong and start anew, God will help you. Oh, the weakness of human help! Men will sympathize for a while, and then turn you off. If you ask for their pardon, they will give it, and say they will try you again; but, falling away again under the power of temptation, they cast you off forever. But God forgives seventy times seven; yea, seven hundred times; yea, though this be the ten-thousandth time, he is more earnest, more sympathetic, more helpful, this last time than when you took your first misstep.

A HARD STRUGGLE.

If, with all the influences favorable for a right life, men make so many mistakes, how much harder it is when, for instance, some appetite thrusts its iron grapple into the roots of the tongue, and pulls a man down with hands of destruction! If, under such circumstances, he break away, there will be no sport in the undertaking, no holiday enjoyment, but a struggle in which the wrestlers move from side to side, and bend and twist, and watch for an opportunity to get in a heavier stroke, until with one final effort, in which the muscles are distended, and the veins stand out, and the blood starts, the swarthy habit falls under the knee of the victor—escaped at last as "with the skin of his teeth."

The ship Emma, bound from Gottenburg to Harwich, was sailing on, when the man on the lookout saw something that he pronounced a vessel bottom up. There was something on it that looked like a sea gull, but was afterward found to be a waving handkerchief. In the small boat the crew pushed out to the wreck, and found that it was a capsized vessel, and that three men had been digging their way out through the bottom of the ship. When the vessel capsized they had no means of escape. The captain took his penknife and dug away through the planks until his knife broke. Then an old nail was found, with which they attempted to scrape their way out of the darkness, each one working until his hand was well nigh paralyzed and he sank back faint and sick. After long and tedious work the light broke through the bottom of the ship. A handkerchief was hoisted. Help came. They were taken on board the vessel and saved. Did ever men come so near a watery grave without dropping into it? How narrowly they escaped!—escaped only "with the skin of their teeth."

There are men who have been capsized of evil passions, and capsized mid-ocean, and they are a thousand miles away from any shore of help. They have for years been trying to dig their way out. They have been digging away and digging away, but they can never be delivered unless they will hoist some signal of distress. However weak and feeble it may be, Christ will see it, and bear down upon the helpless craft, and take them on board, and it will be known in earth and in heaven how narrowly they escaped—"escaped as with the skin of their teeth."

TIME FOR RELIGION.

There are others who in attempting to come to God must run between a great many business perplexities. If a man go over to business at 10 o'clock in the morning, and comes away at 3 o'clock in the afternoon, he has some time for religion; but how shall you find time for religious contemplation when you are driven from sunrise to sunset, and have been for five years going behind in business, and are frequently dunned by creditors whom you cannot pay, and when, from Monday morning until Saturday night, you are dodging bills that you cannot meet? You walk day by day in uncertainties that have kept your brain on fire for the past three years. Some with less business troubles than you have gone crazy. The clerk has heard a noise in the back counting room, and gone in, and found the chief man of the firm a raving maniac; or the wife has heard the bang of a pistol in the back parlor, and gone in, stumbling over the dead body of her husband—a suicide. There are in this house today three hundred men pursued, harassed, trodden down and scalped, of business perplexities, and which way to turn next they do not know. Now God will not be hard on you. He knows what obstacles are in the way of your being a Christian, and your first effort in the right direction he will crown with success. Do not let Satan, with cotton bales and kegs and hogsheads and counters and stocks of unsalable goods, block up your way to heaven. Gather up all your energies. Tighten the girdle about your loins. Take an agonizing look into the face of God, and then say, "Here goes one grand effort for life eternal!" and then bound away for heaven, escaping as "with the skin of your teeth."

In the last day it will be found that Hugh Latimer and John Knox and Huss and Ridley were not the greatest martyrs, but Christian men who went up incorrupt from the contaminations and perplexities of Wall street, Water street, Pearl street, Broad street, State street and Third street. On earth they were called brokers, or stock jobbers, or retailers, or importers; but in heaven, Christian heroes. No fagots were heaped about their feet; no inquisition demanded from them recantation; no soldier aimed a pike at their heart; but they had mental tortures, compared with which all physical consuming is as the breath of a spring morning.

CHEATED OUT OF THEIR FAITH.

I find in the community a large class of men who have been so cheated, so lied about, so outrageously wronged, that they have lost their faith in everything. In a world where everything seems so topsy turvy they do not see how there can be any God. They are confounded and frenzied and misanthropic. Elaborate arguments to prove to them the truth of Christianity, or the truth of anything else, touch them nowhere. Hear me, all such men. I preach to you no rounded periods, no ornamental discourse; but put my hand on your shoulder, and invite you into the peace of the Gospel. Here is a rock on which you may stand firm, though the waves dash against it harder than the Atlantic pitching its surf clear above Eddystone lighthouse. Do not charge upon God all these troubles of the world. As long as the world stuck to God, God stuck to the world; but the earth seceded from his government, and hence all these outrages and all these woes. God is good. For many hundreds of years he has been coaxing the world to come back to him; but the more he has coaxed the more violent have men been in their resistance, and they have stepped back and stepped back until they have dropped into ruin.

Try this God, ye who have had the bloodhounds after you, and who have thought that God had forgotten you. Try him, and see if he will not help. Try him, and see if he will not pardon. Try him, and see if he will not save. The flowers of spring have no bloom so sweet as the flowering of Christ's affections. The sun hath no warmth compared with the glow of his heart. The waters have no refreshment like the fountain that will slake the thirst of thy soul. At the moment the reindeer stands with his lip and nostril thrust in the cool mountain torrent the hunter may be coming through the thicket. Without crackling a stick under his foot, he comes close by the stag, aims his gun, draws the trigger, and the poor thing rears in its death agony and falls backward, its antlers crashing on the rocks; but the panting hart that drinks from the water brooks of God's promise shall never be fatally wounded and shall never die.

FIND PEACE WITH GOD.

This world is a poor portion for your soul, oh business man! An eastern king had graven on his tomb two fingers, represented as sounding upon each other with a snap, and under them the motto: "All is not worth that." Apicius Cœlius hanged himself because his steward informed him that he had only eighty thousand pounds sterling left. All of this world's riches make but a small inheritance for a soul. Robespierre attempted to win the applause of the world; but when he was dying, a woman came rushing through the crowd, crying to him: "Murderer of my kindred, descend to hell, covered with the curses of every mother in France!" Many who have expected the plaudits of the world have died under its Anathema Maranatha.

Oh, find your peace in God. Make one strong pull for heaven. No half way work will do it. There sometimes comes a time on shipboard when everything must be sacrificed to save the passengers. The cargo is nothing, the rigging nothing. The captain puts the trumpet to his lips and shouts, "Cut away the mast!" Some of you have been tossed and driven, and you have, in your effort to keep the world, well nigh lost your soul. Until you have decided this matter, let everything else go. Overboard with all those other anxieties and burdens! You will have to drop the sails of your pride, and cut away the mast. With one earnest cry for help, put your cause into the hand of him who helped Paul out of the breakers of Melita, and who, above the shrill blast of the wrathiest tempest that ever blackened the sky or shook the ocean, can hear the faintest imploration for mercy.

I shall go home today feeling that some of you, who have considered your case as hopeless, will take heart again, and that, with a blood red earnestness, such as you have never experienced before, you will start for the good land of the Gospel—at last to look back saying, "What a great risk I ran! Almost lost, but saved! Just got through, and no more! Escaped by the skin of my teeth."

WM. TEMPLEMAN Manager.

"THE TARIFF ON TRIAL."

Sir RICHARD CARTWRIGHT, or "Blue Ruin DICK," as he is now being dubbed by the ultra Conservative press of Canada, if not the writer that he is the debater, is able at least with regard to the former to express his views in a manner at once perspicuous and convincing. We have reference to his article "The Tariff on Trial," in the May number of the North American Review. First, premising that it is impossible to compress within the narrow limits of the space allotted him a complete statement of the effect of the protective system upon a country like Canada, followed by a paragraph in which he draws a contrast between the "French habitans" and "the former pushing people" of New England, he proceeds to say that in estimating the effects of protection in Canada, "it is necessary to remember that Canada is a country which is by nature and circumstances singularly ill-fitted for the successful operation of the protective system, therein presenting a complete contrast to the United States, of which the conditions are literally and exactly reversed." Illustrating the contrast he points out, that while Canada includes a vast area possessed of great latent resources, it is one of several fertile groups separated from each other by great tracts of barren, worthless territory, all rather the competitors than the customers of each other, and all would rather trade with their neighbor to the south, or with the countries across the ocean, than with each other, while to this must be added the fact, that the population, besides being scattered, is so small that it is quite impossible to carry on many lines of manufactures except at a ruinous cost to the consumer in so contracted a market. In the United States these conditions are exactly the reverse. The group of states lie close together, embracing every variety of climate, forming indeed a complete world to themselves. "In such a country, if anywhere," says Sir RICHARD, "the evils of protection ought to be reduced to a minimum." In any case the success of protection in the States affords no guarantee that it would prove of advantage to Canada. But to deal with the pith of the question, Sir RICHARD proceeds to say:

"Once imbue the minds of a large section of the people with the idea that wealth can be created by imposing taxes, and it is obvious that they have no longer any reason for opposing the imposition of new taxation, and when the government wants money it need only profess that it desires to encourage new industries to find a ready excuse for refilling its coffers. The present government of Canada have not been slow to learn and profit by this lesson.

"Under a system of taxation for purposes of revenue only, the total expenditure of Canada for the year 1874 was $23,316,316. In 1878, under the same system, it had increased to $23,-519,[illegible], being an increase of barely $[illegible],000 in four years in spite of the fact that a very large sum of money had been expended in the interval upon public works. Under a system of taxation for protection, the total expenditure of Canada for the year 1889 was $36,917,834, having increased by an amount of $13,398,531 in *eleven* years. So in 1878 the actual taxation of Canada was $17,841,938, though as there was a deficit that year, the necessary taxation might be placed at $19,000,000. In 1889 the actual taxation was $30,-613,522, being an increase of $11,613,522, taking the necessary taxation (so called) of 1878 as a basis. This, however, is very far from representing the real amount of taxes taken out of the pockets of the people. As every intelligent advocate of protection knows, under a protective system the public must be taxed, *in rerum natura*, to a very much greater extent than is represented by the sum paid into the treasury. It is not possible to estimate this sum with absolute accuracy, but enough is known to make it certain, that the sum is not less than 50 per cent. (probably more) of the revenue received by the Government from taxes. Of this amount a large proportion is absolutely wasted, (i. e., expended in making good the loss incurred in carrying on manufactures under disadvantageous conditions), but a large part finds its way into the pockets of a favored few, for whose benefit under the protective system, the community at large are subjected to this extra taxation. What all this means as regards the question of extravagant expenditure may be best understood by comparing the actual taxation and expenditure of Canada and the United States during the period before the latter were finally committed to the protective theory.

In 1845 the population of the United States was (by estimate)	20,000,000
The taxes of the United States were	$ 27,[illegible]
The total expenditure was	[illegible]
In 1889 the population of Canada was perhaps	4,800,000
The taxes of Canada were	$ 30,613,522
The total expenditure was	36,917,834
In the decade from January 1, 1840, to January 1, 1850, the average population of the United States was	20,000,000
The taxes of the United States were*	$224,804,599
The expenditures were (Includes Mexican War.)	306,429,957
In the decade from 1879 to 1889 the average population of Canada was (by estimate)	4,500,000
The taxes of Canada were	$262,812,578
The expenditures were (not including sums on capital account.)	320,608,134

*Adding $7,000,000 for half year of 1843.

"From these last items may be deducted a sum of $40,000,000 paid as subsidies to the several provinces (although in strictness it should be pointed out that the United States have many expenditures for which Canada has no equivalent); but giving Canada the benefit of this, we arrive at this singular result: that the actual taxation of Canada, with a population averaging 4,500,000, during a period of ten years is barely $2,000,000 less than that of the United States on average population of 20,000,000, and the expenditures are in proportion.

"Comment is hardly necessary. All that I will now say is that, assuming that 50 per cent. should be allowed to the nominal amount of the taxes to represent the real sums of taxation on the people, the sum total so taken in Canada between 1879 and 1889 is not less than $393,000,000 and in all probability is very much more. Briefly, then, as the present annual taxation of Canada is $30,613,522, the real taxation, on the above hypothesis, is over $45,000,-000, without taking municipal taxes into account. This means a burden on the people out of all proportion to the benefits they receive from the Government, and it is a most serious drag on progress. Unfortunately, there is yet a darker side to the picture. The effect of the introduction of the protective system has been to make provision for a large and permanent fund to be applied with the effect and the regularity of a machine to debauching the press and the electorate."

Sir RICHARD then goes on to say that this result is probably inherent in the system, and he relates how Sir JOHN, being pressed for funds, summoned some 80 or 90 political manufacturers to meet him at the Queen's Hotel in Toronto, where he induced them to assess themselves in a large amount for the purpose of providing a fund to corrupt the electors of the Dominion. To summarize the conclusions which Sir RICHARD draws, he points out that protection besides being pushed to greater lengths in Canada than it has been in most countries, has ceased to be an engine for promoting the interests of the people, and is at the best but an apparatus for dividing the spoil; that it has aided in the transference of wealth from one section of the community to the other; has reduced the selling value of every farm in Ontario; has reduced the status of independent yeoman to a position very much worse than tenants at will, inasmuch as they are to all intents and purposes insolvent debtors." Sir RICHARD himself concludes with the following summary of the results of the introduction of the protective system:

1. To remove all check on the expenditure of the Government and to encourage reckless extravagance on their part which has resulted in an annual expenditure for federal purposes of nearly 50 per cent. more for a population of less than five millions than the sum required by the United States when their population was over 20,000,000.

2. To systemize the tendency to use corrupt means for the purpose of influencing the press and the electorate, and to make it the direct pecuniary interest of a very active and influential class to provide a regular and large fund for such purposes.

3. To aggravate and accelerate the tendency to accumulate large fortunes in few hands and at the same time to increase the indebtedness and depreciate the value of the property owned by the mass of the community, more especially in the case of the agricultural class.

4. To favor the growth of large towns at the expense of the smaller ones and of the rural population, which latter has been reduced to an absolutely stationary condition in spite of large (alleged) immigration.

"If it be inquired," says Sir RICHARD in conclusion, how it comes to pass that people of Canada can tolerate such a system, the answer is obvious. In the first place, as any man of any practical experience in politics well knows, it is always a matter of great difficulty to overthrow a well-organized system of corruption which has identified itself with a great political party, and has had the wisdom to secure the services of a moiety of the press.

In the next place, the bare issue of protection versus free trade, or a tariff for revenue is never presented alone to the people, but is always complicated by being intermixed with many other questions, perhaps especially in Canada. Then, again, it takes time for the consequences of any great fiscal change to develop themselves, and the proof of much that has been stated above has only been obtained within a recent period.

Lastly, an immense and continuous emigration of those very persons (i. e., of the younger and more enterprising part of the community) who would have been disposed to assist in overthrowing these corrupt combinations has been going on from Canada with very little cessation for a good many years.

Falks' Milwaukee Bock Beer on draught at the Jubilee Saloon. *

THE GOVERNMENT TICKET.

At a meeting on Friday evening, Captain IRVING, WM. DALBY, J. H. TURNER and SIMEON DUCK were chosen as candidates in the interest of the Government party in this city. If the supporters are satisfied, we know of no reason why the opposition should object to the personnel of the ticket. A strong effort was made to nominate Mr. CHAS. WILSON, but his friends were outvoted, and for the present Mr. WILSON will have to take a back seat. Mr. WILSON would certainly have made a strong candidate, and, if elected, would have proved a useful representative. Both tickets, however, are now fairly before the electors, and upon their decision the result depends. We hope to see the election conducted squarely and honorably and that bribery and coercion will not be resorted to. If that course be pursued, THE TIMES will be satisfied, be the outcome what it may.

THE ATTORNEY GENERAL'S PLIGHT.

Since he had given no specific notice to the contrary it was not unreasonable to infer that the Attorney General, in abandoning his Victoria constituents, had concluded to go out of politics altogether. The character of his speech, however, at the Government love feast last night is conclusive proof that such is the farthest from his intention. He will fasten himself on some rural constituency, and they, dazzled by his rhetorical ambiguity, will possibly rally to his standard. But the causes which have led the Attorney-General to this course are not exactly of the kind which he put forth last night to his admiring auditors. Said the Attorney-General: "If Victoria had two cabinet ministers out of five it might be a source of serious dissatisfaction, and as there was a constituency on the Island where he was well known and where his friends lived, there he intended to go. When called to the Ministry, there being no vacant seat on the Island, he could not run in an outside constituency," etc. If there was no vacant constituency on the Island, there was one on the Mainland, and as that particular constituency had been represented by an Attorney-General, it would have been supposed that Mr. DAVIE, fearful of causing disaffection, would have offered himself to that particular constituency. Mr. DAVIE, however, did nothing of the kind. At the risk of causing disaffection he stood for Victoria, and need we point out that his object in so doing, was, that in the event of defeat in the latter place he could bob up serenely at Lillooet. The moral of this little arrangement is, that the Government, having the power to fix the date of elections can so arrange them that it could run its man for half a dozen constituencies should there happen to be that many vacancies. There should be some arbitrary rules with relation to the holding of elections, although it must be confessed, that the electors when they find themselves being made the cat's paw of a political cabal should have sense enough to resent it. But this is immaterial just now. That upon which we would lay stress is that the tenor of Mr. DAVIE's speech indicates that not only does he expect to be returned to the House but to retain the Attorney-Generalship. Only that he expected to be continued in the Attorney-Generalship he would run for Victoria. He stands for Cowichan that he may remain in the Cabinet and not cause disaffection. How flattered the Cowichanites will be when the full force of this intelligence strikes them. How they will whoop and throw up their hats at the prospect of having their member in the Cabinet. And suppose that Honest JOHN stands for an Island constituency and is elected. Where, oh where, will the Mainland then be in the matter of Cabinet officers? With all five of the members of the Cabinet belonging to the Island, will there be no cause of serious disaffection? The programme of the Government as outlined in Mr. DAVIE's speech last night, is the continuance of the present personnel of the Government, and in the event of the Hon. JOHN ROBSON representing an Island constituency, the Mainland will not have a solitary member in the Cabinet, excepting Mr. VERNON, who does not count. We have frequently stigmatized the Cabinet as a cabal. Does not the present arrangement strongly corroborate us?

EDITORIAL NOTES.

The moneyed interests failed to win the elections in Tacoma. A combination of middle and working classes snowed them under.

A TORONTO clergyman preaching on the labor question, declared that the only true solution of it was in the practice of the Golden Rule by both employers and employees. The same might be said of most other questions now distracting society. But does not the simple proposition contain a confession that neither class acts upon the principle of doing as it would be done by. But to put it squarely would, perhaps, be too sweeping a condemnation of the industrial system. That "enlightened self-interest," of which political economists have so much to say, ought, however, to show the practical wisdom of the clergyman's sermon. What the world really needs is more practical Christianity among all classes on week days.

FACTS FOR FARMERS.

TEARING DOWN THE FENCES WON'T HELP THE CROPS.

Hard Times in Old England—Free Silver Coinage Senators Refuse to Make Concession—Irrigationist Hinton Accused of being a Socialist.

WASHINGTON City, May 8.—After the reading of the Journal the House went into committee of the whole on the tariff bill. Dockery of Missouri said that in the last campaign the Republican party claimed that the farmers would be benefited by protection, yet after the Republican victory the depression in agriculture was greater than ever. This depression followed a great protective victory. It was not a temporary condition of the country that had to be dealt with. Farm prices had not recovered since the panic of 1873. The constant tendency in the west has been downward since that time. He then proceeded to argue that it was not in the power of any tariff to raise the price of any agricultural product unless it should be seen that it was brought into competition with a foreign article, instead of having to meet competition on our own soil. The American farmers exported their own produce to supply the agricultural deficiency of European countries.

Morse inquired whether the farmers did not have to compete with the farmers of Canada.

Dockery replied that the question revealed another injustice of the tariff system. The Western farmers had no competition, but the effect of the tariff on agricultural products was detrimental to the farmers of the East. Eggs, with a duty of 5 cents a dozen, were brought from Canada to New York because it was cheaper to pay the duty on eggs than to pay the railroad rates from the West to the East. Therefore the tariff gave no benefit to the farmer of the West, and taxed the Eastern farmer to the extent of the duty. Dockery then submitted an argument in favor of free wool and reducing the duty on manufactured products. In his state there were 100,000 more people than sheep, and between the people and the sheep, his sympathy was with the people. Discussing the subject of trusts as connected with the tariff, he denounced the dressed beef monopoly of Chicago as having plundered the farmers of the West by unscrupulous exactions. If the farmer was to be relieved, if the mortgage was to be taken off his farm, the government must speedily reverse its policy in regard to foreign trade. If the government would unshackle our genius, unhamper our enterprise, unfetter our resources, we would soon outstrip England.

Burrows of Michigan, said the Republicans would reduce the surplus by one method, the Democrats by another, and it was this conflict of theories which prevented the remedy being applied. In the campaign of 1888 the two theories were presented to the American people, and after a full debate on the platform and in the press, a verdict was rendered in favor of the Republican theory. The verdict was so pronounced as to wrest the Presidency and the popular branch of Congress from the Democratic party. The Democratic party favored a tariff for revenue. The Republican party favored a tariff for revenue and protection, not incidental, not accidental, but intentional. A tariff for revenue only was a step toward free trade, and the Republican party was against it. [Applause.] The bill was intended as a measure of protection, from the enacting clause to the closing paragraph. Burrows defended the tin-plate, sugar and wool sections. Free trade meant unrestricted competition in cheap goods—meant cheap labor; competition in cheap labor meant cheap flesh and blood; competition in cheap flesh and blood was slavery. Cheap clothing and cheap food were of no value if human labor was cheaper still. (Applause.) Free trade meant cheapness to the rich and idle, but longer hours and harder work to the laborer. In this race for cheapness the Republican party did not propose to enter. Whatever might be the cause of the present agricultural depression, no one would be rash enough to assert that it was due to the policy which has created a home market copious enough to consume, exclusive of cotton and tobacco, 95 per cent. of the products of the farm. Whatever might be the remedy for the agricultural depression, one thing was true, it would not be found in the markets of the world. In this bill, said Burrows, we have sought to reduce the revenues to a basis of governmental need, without impairing a single American industry or depriving a single laboring man of the product of his toil.

McMillin of Tennessee proposed to stretch this bill, this putrid patient, upon the dissecting table. It some respects it was like a man, for it was fearfully and wonderfully made. Again, it was like the earth at the creation, without form and all in darkness. There was a general change from ad valorem to specific duties. The prices of commodities were falling all over the world, and this change prevented the consumers from getting the benefit of the reduction. The Democratic party would take issue with the Republican party on the new doctrine of bounties. He also denounced the increase of duty on tin-plate. The gentleman on the other side spoke of the victory achieved by the Republicans in 1888. That was a victory when 100,000 plural majority was for the Democratic candidate.

This provoked a political tilt between Milliken and McMillin which lasted some time.

McMillin then proceeded to analyze the bill, asserting that aside from the sugar schedule there was not a schedule in which the duties had not been increased. McMillin predicted that when the Ides of November arrived there would go up from the Republican party a wail of defeat.

Arbitration Case.

The case of Sinclair vs. the C. P. R. Co., has been ajudicated upon in this city by a board of arbitrators for a number of days and is still proceeding. The amount of money involved is some forty or fifty thousand dollars. The board of arbitrators are Messrs. E. G. Tilton, A. B. Cook (Vancouver) and F. C. Gamble.

Arrival of Gamblers.

This city is again becoming infested by a number of gamblers, says the Nanaimo Free Press, who have evidently been drawn here by the expectation of a large pay day Saturday. One of them stated he heard times were pretty good in Nanaimo, so he thought he would pay the city a visit to see what he could make out of it.

Supposed to be in Victoria.

Mrs. Edwin Spear, wife of the cashier in the freight department of the Northern Pacific at Tacoma eloped with an unknown man last Tuesday. A letter was found in her room signed "Dulce" after she had gone which seemed to show that she had gone to Portland. It said, however that she and "Dulce" have been located in Victoria by a detective and that they intend to stay.

Judge Swan in Town.

The familiar face of Judge Swan of Port Townsend, was to be seen on the streets this morning, he having come over last evening on a visit to his many old friends in Victoria. He notes that Victoria and Port Townsend are progressing steadily and surely. Business just now is a little quiet, which he points out is attributable to the absence of travellers in the same numbers as might be expected. The late spring and floods and tornadoes which have occurred through the States from the Canadian border to the Gulf of Mexico, have paralyzed things generally, and although we have none here and do not think of them, the effects are felt just the same. Referring to methods to advertise their town, Judge Swan said they had decided to leave outside papers alone, and to advertise with their own papers by sending several thousands abroad to hotels and reading rooms every week.

Temperance Reform.

It would appear that every attempt to secure temperance reform has the effect only to make matters worse. In Boston no attempt was made to reduce the number of liquor licenses this year, but an order was promulgated prohibiting the sale of liquor over bars, and making it incumbent on liquor dealers to furnish tables and chairs in their saloons at which guests may be served. This order, instead of imposing a hardship, as the temperance people thought it would, is just into the hand of the wine-bibbers. The best opinion has now come to the conclusion that if liquor is to be sold at all it's unwise to insist that men shall be furnished seats at a table, as the tendency would be to prolong their stay and increase the amount of liquor drunk. It seems to be a clear case that the liquor question is one of those things which must furnish its own solution. High license, and see that only good liquor is sold, is the manifest duty of temperance reformers.

The Cast.

The following cast has been selected for the forthcoming productions of Pygmolion and Galatea, and Withered Leaves, for the benefit of the P. O. Home:

PYGMALION AND GALATEA.

Chrysos (an art patron)...Mr. Edgar Martin, jr
Leucippe (a soldier)...Lieut. Chads
Pygmalion (a sculptor)...Mr. Fred Adderby
Agesimos } Slaves. { Mr. C. W. Rhodes
Nimos } Slaves. { Mr. I. I. McInnery
Cynisca (Pygmalion's wife)...Miss Macaulay
Dapline (Chrysos' wife)...Miss M. W. Perrens
Myrene (Pygmolion's sister)...Miss McN. Jones
Galatea (an animated statue)...Miss K. Brady

WITHERED LEAVES.

Sir Conyers Conyers...Mr. C. W. Rhodes
Tom Conyers...Frederick Adderby
Cecil Vane...Mr. I. I. McInnery
Arthur Middleton...Lieut. Chads
Lady Conyers...Miss Macauley
May Rivers...Miss Sadie Brady

Prof. Adderly, who so ably conducted the stage management of Erminie, is managing this production, and with the efficient company under his guidance the enterprise will undoubtedly be a success.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,

A BY-LAW

Naming the Wards into which the City of Victoria shall be divided and their boundaries.

BE IT ENACTED by the Council of the Corporation of the City of Victoria as follows:

(1). The Municipality of the Corporation of the City of Victoria after the passage of this By-Law shall be divided into three wards, namely, Yates Street Ward, Johnson Street Ward and James Bay Ward.

(2). The said Yates Street Ward shall consist of that portion of land, lying within the said Municipality contained within the following boundaries, namely: Commencing at a point in the centre of Telegraph street at the junction of said street with Victoria Harbor; thence easterly along the centre of Telegraph street and continuing in a line to the centre of Store street; thence southerly along the centre of Store street to a point opposite the centre of Fisguard street; thence easterly across Store street to the centre of Fisguard street; thence easterly along the centre of Fisguard street to the centre of Frederick street; thence easterly along the centre of Frederick street across Cook street to the centre of Alfred street; thence easterly along Alfred street to the centre of Chambers street; thence northerly along the centre of Chambers street to a point opposite the centre of that portion of Putnam street which intersects Chambers street from the east; thence easterly and continuing along the centre of Putnam street and continuing in a direct line to the City boundary line the foregoing being the northerly boundary of Yates Street Ward; thence southerly along the said City boundary to the centre of Belcher street; thence westerly along the centre of Belcher street to the centre of Cook street; thence northerly along the centre of Cook street to the centre of Fort street; thence westerly along the centre of Fort street to the centre of Wharf street and continuing in a straight line to Victoria Harbor; thence northerly along the shore line of Victoria Harbor including all wharves, jetties and buildings abutting on said shore line to the place of beginning.

(3). The said James Bay Ward shall consist of that portion of land within the said Municipality contained within the following boundaries, namely: Commencing at a point on the sea shore being the south easterly extremity of Montreal street; thence following the general line of the shore to the stone monument marked C. B., situated near the south eastern extremity of a new street which is a continuation of Menzies street; thence in a straight line to a stone monument marked C. B., situated at the southern intersection of Moss street and Jane street being also the north east corner of lot 36 in the Fairfield estate; thence in a straight line to the stone monument marked C. B. being 91 links westward of the north east corner of lot No., 64 of the Fairfield estate; thence along the present City boundary line to a point in the centre of Belcher street; thence westerly along the centre of Belcher street to the centre of Cook street; thence northerly along the centre of Cook street to the centre of Fort street; thence westerly along the centre of Fort street to the westerly side of Wharf street and continuing in the same straight line to Victoria Harbor; thence southerly following the shore line of Victoria Harbor, James Bay and the straits of Fuca (including all wharves, jetties and buildings abutting on the said shore lines and James Bay bridge to the place of commencement excepting out of the said tract of land that portion of land known as Beacon Hill Park.

(4) The said Johnson Street Ward shall consist of that portion of land within the said Municipality contained within the following boundaries namely: Commencing at a point in the centre of Telegraph Street at its junction with Victoria Harbour, thence easterly and along the said northerly boundary of said Yates Street Ward to the easterly boundary of the said city, thence northerly and along the said city boundary to the stone monument C. B. situated on the east side of Cedar Hill road; thence in a straight line along the said City boundary to a stone monument marked C. B. situated on the west side of the Saanich Road at its intersection with the Southern boundary of section 5 Victoria District, thence in a straight line along said southern boundary of Section 5 Victoria District to a stone monument marked C. B. situate on the east side of a stream which enters the Victoria Arm thence following the shore line (including all wharves jetties and buildings abutting on the said shore line and also including the Rock Bay Bridge to the place of commencement.

This By-law may be cited as the Wards By-law 1890

Passed the Municipal Council this 10th day of April A. D. 1890.

Reconsidered and finally passed the Council this 30th day of April A. D. 1890.

ILLUMINATE!

The Electric Light is, without doubt, destined to be

The Light of the Immediate Future.

It has proven itself more safe, convenient, cleanly and healthful than any other illuminants.
No ignition from match stumps. No oils to explode.
No gas-pipes to blow up. No soiling of goods.
No asphyxiation.
No vitiation of the air of offices or homes.
It is strangely suggestive of recovered sun light.
The secret of success in Electric Lighting centres in the coal pile.
A dollar saved in fuel, is a dollar earned in dividends.

The Ball Electric Light and Manufacturing Co.
OF TORONTO

Claim for their systems the ability to produce more light per horse power of energy expended than can be produced by any other system known. They guarantee their machinery to outlast other makes, while they are able to sell it at fully one-third less. They supply "arc" and "incandescent" apparatus, or both combined, in any sizes and quantity.
Long distance Incandescent Lighting a specialty. Isolated plants for factories, mills and machine shops, furnished and set up.
Their 1000-candle power lamps are a great success.

INVENTOR OF AN APPARATUS ...

Dr. S. M. Hartman ...

"In Dis Yere Sin-Cussed Worl'."

The mayor of Louisville, upon meeting an old negro, drew him aside, and, in a voice by no means gentle, thus addressed him:

"Randsom, I am going to have you arrested."

"How come dat?"

"Why, for having obtained money under false pretenses."

"I ain't done nothin' like dat, sah; I 'clar' ter goodness I ain't."

"Didn't you come to me yesterday and get a dollar?"

"Yes, sah."

"And didn't you say it was to pay the funeral expenses of your son?"

"Yes, sah."

"Well, but, you trifling scoundrel, I saw your son on the street just now."

"Hah?"

"You know what I said?"

"Yas, sah; yas, but I didn't tell you de boy was dead, did I?"

"Didn't tell me he was dead! You infernal old idiot, did you suppose I thought you were going to bury him alive?"

"No, sah."

"Then what do you mean by saying that you didn't tell me he was dead?"

"Now, jes hol' on, sah; jest wait a minit. Dat boy ain't been in good healf fur er laung time, an', knowin' dat I'd batter bury him sooner er later, w'y I 'lowed dat I'd better raise de money durin' de busy season, when the folks wan't hard pressed. I'se mighty kine hearted dis way, sah; monstous kine hearted, but er man doan git no credit in dis yere worl' o' sin fur bein' kine hearted. An', ergin, I'se er man dat doan' blebe in puttin' off er thing that he knows is gotter be done. Knows dat I'll hatter bury dat chile putty soon, and yere you come an' wanter punish me fer takin' up de ercasion in time.

"You old rascal, that boy is in excellent health."

"Who, dat chile! You doan know dat chile like I does, sah. Dat boy suffers with the genstion, but it's jest as I says, er hones' an' kine hearted man doan git no credit in dis yere sin cussed worl'.—Arkansaw Traveler.

The Unexpected.

Sitter—I tinks I not got so sleepy of I could smoke a pipe already yet.

Artist—Certainly, anything to make you comfortable.

QUITE COMFORTABLE.
—Scribner's Magazine.

He Figured It Out.

While we were smoking on the veranda in front of the hotel a native in backwoods dress came up and sat down on the steps without addressing anyone, and during the next hour he seemed to be asleep. When he roused up it was with an exclamation of "Hu!" and he danced around so lively that the colonel asked him if he had been stung by an insect.

"No, sah—no, sah!" was the vigorous reply.

"Do you always wake up that way?"

"No, sah, but I dun figgered it out and I want to be kicked."

"What is it?"

"Last April," said the man, as he turned to us, "I was a-drivin' my ole mewl and cart along that road down thar', and when we come to the railroad that mewl quit on me. He jist stood right thar' and wouldn't pull a pound."

"I see."

"I heard the train coming and I pulled and pushed and whipped, but it was no use. He stayed right thar' and let the injine hist him half a mile high."

"Well, what have you figured out?"

"Why, sah, I orter onhitched that mewl and driv' him off the track, and then backed the cart off. I hev felt all along that I skipped a cog somewhar', but I couldn't tell whar'. I see it now. I kinder fell into a dose as I sot thar', and it cum to me like a flash. Thar' I stood with my mouth wide open and my legs a-shakin', and saw a $75 mewl flung sky high, to cum down among the splinters of a $50 cart, when I might a-saved both as easy as mud. Gentlemen, please excuse me. I'm a-going around to the co't house to find an onery nigger and give him that mewl's harness to kick me all over South Carolina!"—Detroit Free Press.

And Yet She Wasn't Tired.

"I'm awful tired," Dusenberry said, as he flung himself into a chair after supper.

"What did you do today?" meekly asked his wife.

"Filled a large order, wrote three letters, went twice to the bank, and biggled with Branson until he threw $6 off his bill."

"And that made you tired, eh! Well, I prepared three meals, baked six loaves of bread, got the children ready for school, mended all your clothes, cleaned the stair rods, stoned three pounds of raisins, picked five quarts of berries, weeded the flower bed, whitewashed the cellar, and chased an impudent tramp off the premises. And I don't say that I'm tired, either!"—Detroit Free Press.

The Young Know Everything.

Husband—Well, I believe I'll have to go to the public library. I can't find in my encyclopedia what I want.

Wife—Is it very important?

H.—Yes, dear, it's very important. I cannot finish my article without it. But in the public library I think I will be able to find the authorities that I want.

W.—Hadn't you better wait, dear, till John comes home from the grammar school? He might be able to give you the information you want.

Husband faints dead away.—Boston Courier.

A DANGER SIGNAL.

A Cold in the Head may be aptly termed a danger signal, warning you that if neglected that dangerous and disagreeable disease, Catarrh, is sure to follow, perhaps leading to Consumption and the grave. At no season of the year is Cold in the Head more prevalent than during the Spring months, and at no season do the people of this country suffer more generally from troubles; but apply NASAL BALM, the only remedy that will give instant relief and effect a thorough cure. The following testimonials from among thousands in our possession bear witness to its sterling merit.

Alex. Burrs, Sudbury, Ont., says: I may state that I have been affected with Catarrh seven or eight years, and it was attended by consequent symptoms such as foul breath, constant dropping into the throat, hawking and spitting, partial deafness, ringing in the ears and sickening pains in the head directly over either eye. I have used powders and douches, but all to no effect, the only result arising from the use of such was temporary relief, followed by the usual symptoms in a more aggravated form. The results arising from the use of Nasal Balm: Sweet breath, stoppage of the droppings into the throat, (consequently less hawking and spitting), clearness of hearing, and not once since I began its use have I had pain in the head. In fact it is my opinion that a careful and persistent use of the Balm will effect a cure in the worst case of catarrh.

Nasal Balm

Instantly Relieves

Cold in Head

J. R. A. Smith, of Spallumcheen, B. C. says: I have been using your Nasal Balm for some time, with the most gratifying results. My case of catarrh was a very bad one, but the Nasal Balm has cleared my head, stopped the droppings into my throat, in fact has made me feel smarter and better in every way. I look upon Nasal Balm as a perfect remedy.

L. D. Dion, Dept. Railways and Canals, Ottawa, says: I am very glad to give you to-day the testimony that Nasal Balm has completely cured my catarrh, from which I suffered for nearly three years.

W. H. Sharp, of Treherne, Manitoba, says: I am delighted to be in a position to say that NASAL BALM is helping me wonderfully. IT SPEEDILY CLEARED OUT THE HEAD AND STOPPED THE DISAGREEABLE DROPPINGS INTO THE THROAT. For some time I have suffered severely from catarrhal headache. NASAL BALM has removed every trace of it. I have every confidence in its completely curing me. It is deserving of all you claim for it, "A Positive Cure for Catarrh. Easy and Pleasant to use." I hope it will soon be for sale in every town and village in Manitoba.

D. Derbyshire, Mayor of Brockville and President of the Ontario Creamery Association, says: Nasal Balm beats the world for Catarrh and Cold in the Head. In my own case it effected relief from the first application.

Nasal Balm

Positively Cures

Catarrh

Isaac Waterman, Imperial Oil Co', Petrolia, Ont., says: Nasal Balm gave me the most perfect satisfaction of any medicine I ever used for Cold in the Head. I found it easy to use, quick in giving relief and effecting a complete cure in a couple of hours.

Mr. John H. Adams, merchant, Brantford, says: I have used Nasal Balm for Catarrh and found it to be a certain cure.

If Nasal Balm is not kept in stock by your dealer, it will be sent post paid on receipt of price (50 cents for small and $1 for large size bottles) by addressing

CITY AND PROVINCIAL.

THE GALBRAITH BROTHERS.

They Never Saw Each Other Until They Met in Spokane Falls.

Harry A. Galbraith, representing the Toronto Safe Works of Toronto, Canada, who has been in the city for a few days visiting his brother, James W. Galbraith, leaves on the Pacific express this morning for the coast. Mr. Galbraith is on his way to Victoria, B. C. He swung around this way just to see Spokane Falls and also his brother Jim, who strange to say, he had never seen before.

Jim, who is a pioneer in this section, left home before his brother Harry, who is now 38 years of age, was born, and the two brothers had never set eyes on each other until they met in this city a few days ago. Both are brothers of Mr. Robert Galbraith, who for years past has represented Kootenay in the British Columbia Parliament.

Harry is so completely captivated with Spokane Falls and the great country of which it is the commercial centre, that he leaves with the determination to return here and locate, and will bring his family with him and settle down and engage in business. Mr. Galbraith is a good talker, and in his enthusiasm will give Spokane Falls some first-class advertising when he returns to Canada.—Spokane Falls Review.

A RUNAWAY WIFE.

A Vancouver Husband Seeks his Wife with Blood in his Eye.

Among the arrivals from Vancouver on Thursday evening was Mr. S. H. May of that city. Mr. May was in pursuit of Mrs. May, who, as the story goes, was running away with another man.

It appeared that Mrs. May and child were put on board the Islander on Tuesday by her husband, ostensibly for the purpose of visiting Victoria for a short time, it being arranged that Mr. May should follow in a few days, when they would return with him to Vancouver. But Mrs. May had no thought of returning. A lover by the name of James Holmes was on board, who had planned an elopement with her, and so the happy twain came on to Victoria together. They arrived here late on Tuesday night, and remained at one of the leading hotels till Wednesday evening, when they left for the Sound on the City of Kingston, and that is the last that has been heard of them.

Mr. May next appears on the scene. Having got wind of the fact that his wife and Holmes were flying together, he came over from Vancouver on Wednesday's boat and left for the Sound on Thursday morning in hot pursuit. Whether he has overtaken them or not, has not been learned but when he does it is safe to gamble that there will be trouble. Mr. May had blood in his eye when he stepped ashore at Victoria and vowed he would puncture Holmes with a bullet when he got his eye on him.

The cause of the infidelity which led to the elopement is not known but it would doubtless read like an old story if it could be told. Mr. May, unfortunately for himself, is a very homely man, and Mrs. May is a decidedly beautiful woman—every woman who jumps the track is good looking, according to the papers. Mr. Holmes, her paramour, is a young man who also has some pretensions to good looks. He and Mrs. May appear to have been better satisfied with each other than the two who formed the original partnership and so decided to flee together. But they will repent it.

FRUIT GROWERS.

The B. C. Association's Half Yearly Meeting at Fort Hammond.

The meeting of the British Columbia Fruit Growers' Association, which was held in Maple Ridge Town Hall on Tuesday and Wednesday, was attended by the following members: W. J. Harris, president; O. D. Sweet, vice-president; A. H. B Macgowan, secretary, and G. W. Henry, E. Hutcherson, J. W. Brandreth, G. G. McKay, W. Bulmer, James McAdams, Hector Ferguson, H. P. Bates, W. H. Ladner, M. P. P., Marshal Sinclair, D. C. Webber, W. Hampton, John Laity, John Hammond, W. Bulchert, W. J. McMillan, Peter Latham, Samuel Edy, J. Irving, A. Irving.

A resolution to the effect that the Association apply for incorporation under the title of the British Columbia Fruit Growers' Association was adopted.

Mr. W. J. McMillan gave an address dealing with the manner in which fruit should be packed for the market, which led to a discussion.

Mr. E. Hutcherson read a paper on protection to the fruit growing industry, in which he argued that a duty on California fruit was a benefit to all concerned. His remarks were received with applause.

It was decided, after some discussion, to hold an exhibition at New Westminster on the second Tuesday in August, and Mayor Brown, Ald. Sinclair and McPhaden were appointed a committee to look after the arrangements.

The meeting then adjourned and dinner was partaken of, after which an entertainment took place in the school house, at which addresses were given by a number of gentlemen, and among members President W. J. Harris, Mr. Macgowan, Mr. Ladner, Mr. Sweet, and Mr. Hutcherson.

The meeting adjourned to meet on the second Tuesday in August at New Westminster.

Contracts made for supplying families with ice at reasonable rates by the British Columbia Ice Co. Telephone call 81, office 22 Yates street. 7-5.1m.

A BIG SCHEME.

British Columbia Mining Scheme that is Being Boomed in Alaska.

The last Juneau (Alaska) Free Press to hand says: "We have received from Joseph Johnson, or 'Sheep Creek Johnson,' as he was known here, the prospectus of the Siwash Creek Hydraulic and Flume Company, in Yale district, B C., in which concern Johnson is one of the lessors and active promoters. The prospectus reads thus:

Value of claims $3,000,000; $50,000 as present working capital for plant, the balance of the amount being open to subscription; $50,000 of interest is placed on the market for the above stated purpose for the purchase of machinery; length of claim six miles, width, 1000 feet."

Church Notice.

Gorge Road Methodist Church—Rev. W. W. Baer morning and evening. Subject for the evening, "The Demands of the Age."

War on Dogs.

The city dog catcher was out this morning, and made several good hauls of unlicensed canines. This is well, and it is to be hoped that the hordes of useless curs which infest the streets will be thinned.

Fraser Fisheries.

The salmon fishery on the Fraser is seriously interfered with by the high water. Driftwood and snags play sad havoc with the nets, and no very large catches are expected for some time yet. The sockeye run has commenced but they are not yet very plentiful.

To Housekeepers.

The heated term is upon us, and the need of a good disinfectant becomes apparent again. One of the cheapest, and at the same time most highly recommended articles of this description, is Napthazone, a notice of which appears in another column. It is a thorough disinfectant, and no housekeeper should be without it.

The Land of the Rising Sun.

A very attentive audience was present at the Pandora Street Methodist church last evening to listen to a well delivered and interesting lecture on Japan by the Rev. Mr. Cocking. The Rev. gentleman proved to be thoroughly conversant with his subject which he illustrated with peculiar Japanese articles of every day use in the Island Empire.

Marriage.

At Vancouver on Thursday at the residence of Mr. T. Prest, Grant Campbell, of Godfrey & Co., was united in marriage to Miss Mabel Prest. A large number of friends of the contracting parties were present at the house to witness the ceremony. Mr. R. Mathison acted as best man and Miss Fewster as bridesmaid.

Music at the Park.

There will be music at Beacon Hill Park to-morrow afternoon from 2:30 to 4:30, when the Victoria band will render the following programme:

Sacred Potpourri—"Herald Angels".....Boyer
Selection—Gipsy Bride.....
Grand Fantasia—Moody and Sankey's Songs.....De Lacy
March—Albert Edward.....W. H. Lee
Grand Selection—Donisetti.....
Grand Fantasia—Atalanta.....De Lacy
NATIONAL ANTHEM.

Reversed the Decision.

The appeal from the verdict of Mr. Justice Drake, liberating Capt. Sol. Jacobs from custody was heard in the Divisional Court yesterday afternoon before the Chief Justice and Justices Walkem and McCreight. Their Lordships reversed the decision and ordered that Jacobs be remanded back to custody. Davie and Bodwell for the applicant, and Messrs. Belyea and Helmcken for defendant.

False Starts.

They bill and coo before they're wed,
They joy in lovers' laughter;
But when the marriage words are said,
It's mostly bill thereafter.

Because they make a false start in buying their supplies on time at expensive stores, instead of for cash at the universal supply store of Russell, McDonald & Co., opposite the Iron Church, Douglas street.

Extinguished by the Police.

Officer H. E. Levih discovered a fire on Thursday night within a few feet of a row of wooden buildings owned by Joseph Brothers. The fire was burning in a pile of rubbish in the vicinity of the wagon making shops between Broad and Douglas streets, and was seen in time to save the valuable property in the neighborhood. The fire was extinguished in a few minutes. Last evening Officer Haughton put out a fire in a pile of waste paper at the back of Matthews' store on Fort street.

Sanitary Improvements.

An inspection has been made of the central school premises by the health authorities, and it will probably be advised by them that proper water closets and flushing urinals be provided for that institution. It is certain that some better sanitary arrangements should prevail, as the large number of scholars, nearly a thousand, now attending there, make a change for the better imperative for the preservation of health. Drains already exist, and the expense of putting in a water service would not be very great, and the money would be well expended.

Pansies With Diamond Dew Drops.

Some fine specimens of the splendid work of Pennock & Clayton, can be seen in the engraving on the cups for competition on the 24th inst., now on exhibition in their show window. The firm make a specialty of this class of work, and none better is done in the Province. Some beautiful samples of their enamel are also displayed. A necklace of gold with pansy pendants, the centres of the flowers being small diamonds, to represent a dewdrop probably, are particularly handsome. The pansies can be made any color desired, and their resemblance to nature is wonderful.

Train Making Progress.

The last despatch from George Francis Train comes from Port Said. He was then 48 days out from Tacoma. This is very rapid travelling and it now looks as if Psyche was going to beat the record by at least a week. From Port Said to Brindisi is a short two day run, and from Brindisi to the coast is only two days more. There is 52 days of the voyage covered and with the Werder which seems to be an unusually fast boat, these four days may be shortened at least half a day. The trip from Brindisi to the Atlantic is by rail and by taking a special train the voyagers might save another half day. This leaves 51 days with the Atlantic to cross. Give him six days there, and with the lightning express across the United States in four days and there it is—around the world in 61 days, beating Phineas Fogg nineteen days and Nellie Bly eleven.

Children Cry for Pitcher's Castoria.

Falks's Milwaukee Bock Beer on draught at the Royal Hotel.

Novelties in ties, see our windows Gilmore & McCandless.

Tack pullers, carpet stretchers, and other house cleaning apparatus, at McLennan & McFeely's, 70 Yates street.

Never Here Before.

BRIEF LOCALS.

The Day's Doings in City and Province Briefly Related.

J. A. Webster, of New Westminster, is in the city.

Jack Dempsey, Paddy Gorman and Dave Campbell, the three famous pugilists, are registered at the Poodle Dog Hotel.

Hon. Theo. Davie went up to Cowichan by this afternoon's train. It is said that he will hold a meeting at Quamichan this evening.

A party of Indians arrived down from Cowichan to-day to take up the body of the Indian woman who committed suicide on the Indian reserve.

A large party of sports were on the wharf when the City of Kingston arrived last evening with Jack Dempsey and his party of pugilists on board.

The work of raising the locomotive which slipped into San Francisco Bay a few days ago is proceeding satisfactorily, and it is expected to arrive here in about two weeks.

The sanitary drain at the police barracks, which has been a source of trouble for some time, is to be replaced by one of larger diameter, the pipes of which are coming from 'Frisco.

W. A. Weeks and wife, of Charlottetown, P. E. Island, arrived from the south last evening. Mr. Weeks is the proprietor of one of the leading dry goods houses of the Island Province.

The regular monthly meeting of the board of directors of the Y.M.C.A. was held last evening, when the report of the different committees which show a satisfactory increase, were received.

A small ashbox fire occurred in the alleyway next to Jamieson's grocery store on Fort street last night. The miniature conflagration was put out with a garden hose by Officer Hawton.

It is believed that the charge of murder against Martin Phillips who shot and killed one of a party of young men who were charivaring him will not be sustained, and that he will be acquitted.

The steamer Cosmopolitan arrived in Nanaimo yesterday morning from Alaska. She brought down a party of miners who have been prospecting at Forty Mile Creek, a tributary of the Yukon.

Mr. Wagner, of White river, Washington, who with his wife has been visiting the city for a number of days, returned home this morning. Before leaving he purchased a few acres in the eastern suburbs of the city.

An accident occurred to a freight train on the C. P. R. on Thursday night two miles west of Mountain Creek station, on the east slope of the Selkirks, caused by a mud slide undermining the foundations of a small bridge. Engine No. 409 and some empty cars were derailed. Engineer Van Antwerp and Fireman McDougall received slight injuries.

A Fraser river fisherman has found some specimens of the lamprey eel on salmon caught by him in the river. The lamprey is a denizen of salt water, but often ascends streams in the spring for the purpose of spawning. They live by sucking the blood of other fishes, and one of the lampreys when found, had bored quite a distance in the salmon on which it was feeding.

A man named Till, at New Westminster, has discovered a process by which meat can be kept fresh forever and a day. The Colonist says: "A piece of veal under the process, was eaten after five months, and tasted just as fresh as when killed. At several fish houses in Westminster the preservative was tried on salmon a week ago. To-day they are as fresh as ever, notwithstanding the hot weather. What the process is, is a profound secret, but it is not pickle." It is very probable the same sort of mixture that the ancient Egyptians used to preserve their dead. "Mummified salmon" may very shortly compete in the markets of the world with the canned article.

PERSONAL.

Movements of Well Known People in Various Directions.

A. S. Black, of Vancouver, is in the city.

Jos. Loewen is improving as fast as can be expected.

H. V. Burner, of the Union Pacific, came over last night.

Ald. Harrison had a cancer removed from his hand yesterday.

Hon. D. W. Higgins returned last evening from a trip across the Sound.

Geo. A. Huff, J. P., of Alberni, is in the city. He will leave for home tomorrow.

C. A. Holland, Esq., with brother, Mrs. Holland, boy and nurse, are at Roccabella.

I. and B. Van Volkenburgh returned from the Sound last evening where they have been looking up cattle.

J. W. Robinson, of Vancouver, passed through the city last evening on his way home from the Sound.

Ben Hall, who has just completed a course at the Philadelphia Dental College, returned to Victoria last evening.

The many friends of Mrs. J. W. Arnold will be pleased to learn that she is recovering from a long and severe illness.

A. Baker, son of R. Baker, arrived from Philadelphia last evening where he has been attending the dental college. He successfully passed the first examination and will return in August to put in another year.

Among the passengers by to-morrow morning's steamer will be Mrs. James E. Thomas and her daughter Fay, who leave on a visit to Tara, Ont., to the lady's parents. The visit will extend over several months and the Toronto exhibition will be taken in. Last evening several friends met at the residence of Mr. and Mrs. Thomas, Hillside avenue, and wished the travellers a pleasant trip.

Baby Buggies, the finest and largest assortment in the city at low prices, from $9.50 up, at J. Sehl's 66 Government street.

Children Cry for Pitcher's Castoria

Thermometer at Kellogg's.

Average temperature to-day.....58°

Vernon.

We call the attention of investors to the announcement regarding the terminus of the Shuswap and Okanagan Railway, which will shortly be placed on the market.

Half Rates on the 24th.

Mr. S. B. Hendle, agent for the Union Pacific Company in this city, is advised by telegram to-day from Mr. T. W. Lee, general passenger agent, Portland, that the company will issue tickets from all points on the Sound to Victoria on the Queen's birthday at half rates.

Hay for Tacoma.

On account of a law that exists in the United States, prohibiting passenger steamers from carrying hay, the City of Kingston will be unable to take the contract for taking the hay to be shipped to Tacoma every week by Brackman & Ker, and consequently the Maude has been chartered to go over. She will leave with the first load in a few days.

Business Change.

Messrs. Cowan, Shaw & Co., wholesale commission merchants, are giving notice of a change in the firm, made by the retirement of Mr. Cowan, whose future line is wholesale groceries. This firm, though not an old one, are widely known throughout the province, the variety of lines carrying them to all points where business is carried on. Mr. Shaw will continue the business as usual, and we wish the new firm that success which their business ability and energy should entitle them to.

Saloons in Alaska.

A meeting of those engaged in the saloon business in Juneau was held on last Monday night to take action on the proposition made to liquor dealers in Alaska by the governor to take out a liquor license. The meeting expressed a desire to comply with the law and the request of the governor, if they could be assured that such would protect them in their business. If satisfactory protection is assured them, they are all in favor of taking out such license, the amount of which is placed at $250 per year.

Steamboat Notes.

Mr. Blackwood, agent for the Northern Pacific, says the City of Kingston is doing a good business. She left Tacoma yesterday morning with ten car loads of freight for points down the Sound and a good passenger list. The company is greatly pleased with the way the Kingston is doing the Sound work single handed. She is doing what no other boat has been able to do before her. Not even the Olympian which tried it twice, was found equal to making the long circuit between Victoria and Tacoma every day and keep it up. The new boat, City of Seattle, which is being built for the Northern Pacific, will likely be placed on the Tacoma-Victoria route and the City of Kingston put on the Whatcom route.

Railway Projects.

Mr. De Cosmos, who recently visited New Westminster on business connected with the Victoria, Saanich and New Westminster Railway, says the road will come. He is not prepared to make public the result of his conference with the New Westminster city council and with the public of that city, but simply asserts that the road and ferry will be built. The proposition to pay a large bonus for ferry connection with a foreign line at Port Angeles should not, in his opinion, be entertained. If Victoria requires anything better than what she has got in that direction, why not bonus a ferry from Port Townsend as soon as trains start running in there?

A Heavy Blast.

A blast was set off this morning at the excavations for the Canadian Western hotel which, when it exploded, did some damage, pieces of rock being thrown across Government street, smashing a window and giving a scare to people who were near. A lad named Morris Hughes, living at the corner of Cook and Yates streets, was struck by a piece of flying stone, but not seriously injured. He was attended to by Dr. Milne, and sent home, where he will be cared for. The accident was caused by one of two blasts lifting the logs placed to keep the debris from flying, leaving the second blast unprotected. An electric firing machine is to be used in future, when all danger of a repetition of the accident will be avoided.

Police Notes.

The notorious Hattie Spaulding was charged before the police court magistrate this morning with having used insulting language in the streets. Evidence was given which proved that very insulting and vile language to a gentleman, who at the time was walking quietly on the streets. Counsel for the defense pleaded strongly for the acquittal of the accused, and a fine of only $5 was imposed, this moderate sum being evidently considered enough to satisfy outraged decency and justice.

Annie, an Indian woman, was charged with being in possession of beer. Five bottles were produced in evidence, one of which was half emptied, and the others full. This had been found in the possession of the accused, and showed that she must have contemplated an extended jag. A fine of $25 was imposed and collected.

Patrick Phelan was told to stand up, and a charge of drunk and disorderly preferred against him. The stereotyped legal formula was read out by the clerk, and as the expression "within three months last past," fell from the lips of the clerk, the accused became all attention, and said, "Yes, I was drunk, sir, but not for three months, sir. I am sorry I was drunk, and will never offend again." A fine of $5 was imposed and paid.

Largest variety of clothing in Victoria, Gilmore & McCandless.

Fence Posts.

Split cedar fence posts for sale. Apply to A. C. Howe, corner of Discovery and Government streets or to Scotch Bakery Douglas street.

A MEAN THIEF.

Alderman Harrison's Garden Robbed of Choice Flowers Friday Night.

Some time on Friday night the garden of Alderman Harrison was visited by a new kind of a thief, a species which we are glad to think is somewhat rare in Victoria. Mr. Harrison has taken a great deal of trouble and incurred considerable expense in making a flower garden, and last year imported from New York a number of choice dahlias. These plants were growing in his garden and the worthy alderman was anticipating the pleasure of seeing the magnificent flowers in bloom in due season. But a thief stole in in the night and deliberately dug up the plants, bulbs and all, and carried them away. There is no trace, other than a few boot marks, to the thief, but the police will endeavor to locate the scamp, and if they succeed it is to be hoped he will be punished with the utmost severity. Pinching a flower from its branch is contemptible enough, but the theft of whole plants is a species of larceny that few ordinary thiefs would be guilty of. The love of flowers is not inherent in vagabonds, and hence the despoiler in question must have been prompted by some other motive.

LONGER LUNCH HOUR.

A Change Required at the Central Schools —Health of the Scholars Considered.

For some time past the scholars of the public schools have been debarred the privilege of eating their luuches in the school room during the noon hour or recess. In the ward schools this has not been a particular hardship, but in the central schools it has been the cause of some considerable annoyance. In the ward schools those scholars who attend, do not, as a rule, live any great distance from the building, and it is easy for them to go home for lunch. In the central school, however, many of the scholars live quite a distance away, and the hour given for lunch in the middle of the day is hardly time enough to allow the children to go home and return. Several do go home but the injury to the health by eating so hastily is certain to be felt later on.

It has been suggested that a longer lunch hour be given at the central schools, say an hour and a half, and the afternoon session increased a half hour, so that the hours of study may be in no wise curtailed. This would give the scholars more time, and health would thereby result. Certainly some better plan should be devised, as under the present system a foundation of dyspepsia is being laid. If the lunch hour cannot be lengthened, some proper means should be provided so that the scholars can have shelter from the sun or rain. The teachers have their lunch in the school rooms, and why the scholars should not be accorded the same privilege, nobody seems to know, but so the rule is. Some change should be made, if the wealth and comfort of the scholars is to be considered.

LAND GRABBING.

Opinion of the Vancouver Board of Trade—Hints to the Government.

Mr. H. H. B. McGowan, Secretary of Vancouver City Board of Trade, in his report dated 4th March, 1890, makes the following remarks in connection with his enquiries respecting the agricultural capabilities of the Province, and the great loss it sustains by having to import so largely of commodities that we should be producing. He says: "There are immense tracts that owing to their not being settled, I could learn nothing of, and there are also several important sections that I have, up to the present, received no answers from. I am fully satisfied, however, that if our Province were opened up by railways and dray roads, and agricultural settlers encouraged in this and other ways, our import list in this line would be greatly decreased, if not altogether wiped out. The fear of over production and consequent falling in prices need not be anticipated, as our mining, mechanical, industrial and other population, outside of agricultural, is so rapidly increasing that it will take all our time to produce sufficient for them to consume." "I cannot close my notations on this all important subject without referring to the evil practice of granting to land jobbers, at small prices, large tracts of land for speculative purposes, thus debarring our country from receiving that bona fide producing population that would so increase our wealth, comfort and satisfaction. Unless this system is promptly checked our good lands will all be secured by land grabbers, and the intending settler will either have to go to real estate agent or pass on, so far as securing a farm is concerned. A system preferable to this in my ideas would be the retaining of these lands for gratuitous distribution in small tracts, under rigid conditions of improvement, to practical farmers, who would soon bring to us the realization of the fact that British Columbia is one of the finest farming countries the sun shines on." Speaking of fisheries, he says: "While our salmon pack has been immense during the past year, it is a matter of surprise to many that there was not greater development in other fisheries. The immense wealth laying dormant for want of some practical operations seems slow to attract notice. I feel satisfied that when once intelligently worked our deep sea fisheries will be found to be one of our greatest sources of wealth."

Art Reception Fruit store, George Bigger, has removed to the healthy location, No. 111, Government street. Fruit, confectionery and cigars sold. Soda Water fount in connection. American candies a specialty.

Ten O'Clock, A.M.

On Monday morning the police court will commence at ten instead of eleven o'clock, as before. This will be a great convenience to those who have to attend that place daily, as in the past the court has generally been sitting at noon, thus keeping many away from their lunch, whereas by the new time the business can do most days be finished before twelve. It will also be welcomed by the police officers, who after having been up most of the night, have to stay up to attend.

NAUTICAL NOTES.

Items of Interest Along the Water Front—General Marine News.

The schooner Venture is to be hauled out for an overhaul.

The tug Pilot arrived from Departure Bay this morning with a load of coal.

The revenue cutter Bear was in Seattle yesterday taking on coal for her cruise in Behring Sea.

Captain Fred Hilliard, who was one of the oldest and best known captains on the coast, died in San Francisco recently.

SAN FRANCISCO, May 10.—Cleared—Steamer Wellington and ship Jos. S. Spinney, Nanaimo; steamer Walla Walla, Victoria.

The barge of coal which the steamer Alert lost is on the beach near the new barracks, nearly submerged. The coal is to be put on to another scow and will be saved.

The steamer Danube arrived from Vancouver this morning with 400 tons of Chinese merchandise and 500 tons of paddy ex Batavia. The latter is for Hall Ross & Co., and will be discharged at the inner wharf.

The steamer Falcon which was on the rocks at Coal Island arrived in the harbor this morning none the worse for her mishap. Capt. Cowper denies that his steamer was in a dangerous place, and he says she came off as soon as the tide raised, without a scratch.

A tug boat captain at Port Townsend reports that on Tuesday last the Victoria tug Lorne was sighted in the Straits towing in the ship Glory of the Seas. The wind was so strong that it caused the ship to plunge and turn the Lorne completely around. The Hawser had to be cut to relieve the Lorne from the predicament. This is evidently untrue, for the Lorne is the most powerful tug on the coast, and it would be impossible for her to be placed in the position described unless a whole cyclone was let loose.

The British bark Hannah Landes has been floated off from the beach at Point Wilson. It seems that the accident is rather an unfortunate one for Captain Mowrette, as he is a young man who has been on the vessel seven years and has worked himself up to the position of master. This was his first trip and is likely to cause him to lose his vessel, although, as a matter of fact, the vessel is entirely uninjured, and was gotten off without any assistance from the tugs. There has been considerable comment at Port Townsend on the action of the tug Pioneer. The tug was beside the vessel before she was hard aground and Captain Mowrette asked for a tow. The Pioneer's commander asked $5000 for the services of his tug, and rather than help the grounding ship, lay alongside and saw her drift ashore. The idea of asking $5000 for work which could have been accomplished in five minutes!

Advertising the Celebration.

The large posters advertising the celebration to be held on the 22nd, 23rd and 24th inst., are being distributed. They are printed in three colors and being very large will no doubt attract the attention of many of the residents of the cities in which they will be distributed.

Use the Gongs.

The motoneers on the street cars should use the alarm gongs with a little more frequency when approaching street crossings. Carelessness in this matter may result in loss of life, as the cars shoot over the crossings so quietly that persons not taking notice run a risk of being struck.

Going to Comox.

Several colored men arrived in the city to-day for the purpose of proceeding to Comox, where they expect to be employed in the Union Mines. It was thought these mines would be shunned by this race as at present there are only about three in the camp, all the others having long since left. Probably the warm weather has induced them to return.—Free Press.

PASSENGERS.

Per steamer Olympian from Puget Sound—E W Yeatherd, wife, child and maid, R Manporten and wife, O Lee, C Peterson, Mrs Cox, E R Harding and wife, R B Heron, B Van Voltenburgh and brother, B Campbell, T Awrey, J Smith, C McDonald, Mrs Laurence, L C Barrett, J H Smith, D W Higgins, G P Wiley, J L Heron, H V Burner, W A Weeks and wife and son, S St. Clair, C Haas, Wm Goudy, E Roland, C B Lattins, C B Cox, Mrs L Thomas, H S Martin, J M Graham, Jas McLaine, W H Quinn, J Peters, W Stewart, E Janaud, P D Carter, J W Robinson, Lewis Levy, C E Mallette, 1 Indian.
